

# GREETINGS

Happiness is closely identified with success, and to you is due our thanks for your patronage of the past year, which has helped towards our sharing abundantly in both.

With the approach of the New Year, we extend to you our sincere wishes that it may bring great prosperity, success and happiness.

## His Stomach Troubles Over.

Mr. Dyspeptic, would you not like to feel that your stomach troubles were over, that you could eat any kind of food you desired without injury? That may seem so unlikely to you that you do not even hope for an ending of your trouble, but permit us to assure you that it is not altogether impossible. If others can be cured permanently, and thousands have been, why not you? John R. Barker of Battle Creek, Mich., is one of them. He says: "I was troubled with heartburn, indigestion, and liver complaint until I used Chamberlain's Tablets, then my trouble was over." Sold by all dealers.—Adv.

## Daily Thought.

What is beautiful in good, and who is good will soon also be beautiful.—Happo.

## Prudish Priest.

Frudery knows no frontiers. The historic and valuable frescoes in the church of Benouville, Calvedos, have just been ruined by the misplaced zeal of a parish priest. The frescoes represented the Day of Judgment and scenes from an old French parable, and the priest's action is due to the fact that the painter clothed his figures after the fashion of our first parents.—London Globe.

## Probably Not.

Sir Abe Bailey has a baby. If Sir Abe Bailey's baby is an able baby, it will be an able baby Bailey, will it?—London Globe.

## Protect the Landscapes.

Prussian police are empowered to prohibit the defacement of landscapes by the erection of billboards and other signs and pictures.

## Little Profit in These Mines.

Some forty years ago considerable copper was mined and shipped out of San Fernando in the southern part of Lower California, but since then not much has been done with this metal. The principal difficulties in the way of the profitable mining of copper are fuel and transportation facilities. Iron deposits have been found at several places, the principal one being at San Isidro, but no active work has ever been done.

## Drier, Too.

"Don't you love, Miss Sweet, to sit in the house on a stormy night, and hear the dreamy patter of the rain on the roof?" asked Mr. Mub. "Yes, indeed, I do. It is so much pleasanter than to sit outside in it."

## Rely on Yourself.

Necessity is the stimulus to industry. Don't dream of some Hercules coming to give you a lift. Let no villain tempt you of some one conveniently dying and leaving you a trifle of \$100,000, with which you may make a million.

## NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, December 24, 1913. Notice is hereby given that E. C. Lachner, whose post office address is Salt Lake City, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909 and 1911, to appropriate one (1) cubic-foot of water per second from Water Canyon, Carbon county, Utah. Said water will be diverted at a point which bears south 19 degrees 15 minutes east 1,248 feet distant from the south quarter corner of Sec. 4, Twp. 14 South, Range 14 East, Salt Lake base and meridian, from where it will be conveyed by means of a pipe line for a distance of 1,090 feet, and there used from January 1 to December 31, inclusive, of each year, for milling purposes at the mine of the Asphalt Company of America, in the Tidwell-Hidout Mining District, Utah. As a secondary purpose, as much water as may be necessary will be used during the entire year for domestic purposes. This application is designated in the state engineer's office as No. 5451.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice. W. D. DEERS, State Engineer.

Date of first publication January 8, 1914, date of completion of publication February 7, 1914.

## COAL PRODUCTION INCREASED IN UTAH

COKE OUTPUT DECREASED ON ACCOUNT OF FIRE.

State Mine Inspector Reports Record Production This Year—Thirty-Nine Serious and Sixty Minor Accidents Took Place in Mines.

A year of prosperity in the coal fields of Utah is predicted by J. H. Pettit, state coal mine inspector, in his annual report, which will be ready for the public within a few days. The increase during the year in the output of coal was material, and the decrease in the coke output is accounted for in the report.

One less fatal accident than in 1912 is shown in the report and the number of fatalities during the year left but six children fatherless and five widows. The general conditions as given in the report were outlined recently by Mr. Pettit as follows:

"The coal output for Utah for 1913 was 3,259,355 short tons, an increase of 299,899 tons or 9.5 per cent over 1912. The production of coke was 21,594 tons, compared with 247,546 tons for 1912 or a decrease of 9.4 per cent.

"The main factor responsible for the decrease of the coke output was the disastrous fire at Sunnyside May 26th, when a bridge and coal crushing plant of the Utah Fuel company was burned, entailing a loss to the company of some \$60,000, necessitating working of the two shifts, one day and one night shift, and crushing of the coal over an improvised bridge. This untoward manner of handling coal also cut down the output of the Sunnyside mines at least 100,000 tons.

## Coal Shortage Factor.

"A shortage of railroad cars in the fall also contributed to the small percentage of increase of coal, but during the winter months no shortage of cars was experienced.

"Men employed in and around our coal mines and coke plants during the year were 659, showing an increase of 671 men.

"While a good increase was shown in the production of the old producing mines, some of the new ones did well, notably the Storm mine of the Spring Canyon Coal company with an output of 116,000 tons; the Willow Creek or Castle Gate No. 2 mine, with an output of approximately 24,000 tons, and the American Fuel company, with 50,140 tons.

"Seventy-six new coke ovens were built at Sunnyside last year and are now in operation, making a total of 726 beehive ovens now in operation. Seventeen fatal accidents occurred during the year, or 3.64 men per 1000. Twelve accidents occurred in the mines and five on the surface at or near the mines. This is one less fatal accident than in 1912, when sixteen men were killed in the mines and two on the surface. As a result of the fatalities this year, there are five widows and six fatherless children. There were also thirty-nine serious and sixty minor accidents.

## Some Decrease Shown.

"The hydro-carbon output was 22,239 tons, a decrease of 9697 tons or 2.8 per cent. This was due to the limited demand for this product in the eastern market.

"The coming year is expected to show a large increase in the production of coal. The Standard Coal company, situated in Spring Canyon, expects to begin shipments of coal by February 1st, their trainroad, tipples and railroad connections being practically completed. The Carbon mine of the Panther Coal company, owned by the Sharp interests, has its trainroad, tipples and sidetracks 80 per cent completed and will produce 1000 tons per day before the end of the year. The Cameron mine, one mile north of Castle Gate mines, will reach coal through a pair of slopes driven in rock 720 feet by January 15th, and will be a steady producer, with F. H. Cameron as owner and manager. The Kellelum Coal company will also commence operations this year.

"Some sixty mining machines of the various standard types were installed in the mines of the state last year, and over one-third of the output was removed by electric and air machines. No labor troubles occurred last year and conditions as far as can be judged locally are favorable for a prosperous coal mine year."

## Chamberlain's Cough Remedy.

This remedy has no superior for coughs and colds. It is pleasant to take. It contains no opium or other narcotic. It always cures. For sale by all dealers.—Adv.

## OAK BAR

First-Class Goods Handled in a First-Class Manner.

Location—Old Laundry Building.

COURTEOUS TREATMENT TO ALL

CHAS. ACKERMAN & FORD Proprietors.

## HIAWATHA COAL!

IT'S THE BEST, IT DOES NOT SLACK, IT DOES NOT CLINKER.

## Dr. M. V. Maloney

DENTIST  
Painless methods. Prices reasonable. Written guarantee given with all work. Crown and bridge work a specialty. Plates that fit and do not make the mouth sore. Five years in Carbon county. Estimates and examinations gladly given free of charge.  
Hours—9-12 a. m. and 1-3 p. m. Sundays, 10 to 12 m.  
Office in Parker & Weeter Block, over Rexall Drug Store.

## PRICE

## Club Bar

HARRY A. CRAIN Proprietor.

FIRST-CLASS RESORT FOR GENTLEMEN.

South Ninth Street, Price.

## JOSEPH HENRY

Transferring and Draying

Phone 55.

Freight Given Our Special Attention.

Only Bonded Drayman in Town.

## Cars For Rent

To any part of Carbon or Emery Counties.

**S. R. JEWKES & CO.**

Telephone  
46x or 46x2

## The Duchesne Stage And Transportation Co.

Autos leave Colton and Vernal daily and reach all important points on the Uinta reservation.

Excellent accommodations along the entire route.

## THE CARBON HOTEL

Everything New, Clean and Up-to-date  
Bath Rooms for Guests  
Rates \$1.00 per day -- \$10 per month

MRS. J. BEDDOES, Proprietor  
PRICE, UTAH
